Following is the daily market comment of Paine, Webber & Co.. Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, by James A. Pollock & Co., and from which the secured for use in this department of it is secured for use in this department of The Herald:

Boston, Nov. 9.—Just as we told you on Saturday, they caught stop orders today all through the list, and the declines were sharp at times and especially in North Butte between 89 and 874. The market is all the better for it, and will go merrily on now. Buy Range, Shannon, Butte Coalition, Calumet & Arizona and Superior & Boston. This last proposition is one of the new finds in Arizona and destined to be as successful as the Old Dominion and Arizona Commercial. We advise buying it for 29 on this swing. cured for use in this department of then the great Mendan property, the Dem-

inspection Wednesday substantiated the reports received through his mining corps to the fullest extent. He personally inspected the properties, climbing ladders, looking at and sampling ore bodies, estimating tonnage and in general sizing up the exact condition he came in contact with

Chief Engineer Tilton came here with the errand of estimating the grade and cost of building an extension of their Callente-Pioche road through the Highland district and over to the Prince properties. Mr. Tilton said the grade would be almost level around to the Prince, and intimated that he was satisfied the extension would soon be made to the dif-ferent properties.
"Of most importance, possibly, was the

proposition of the extension to Ely; while no definite news could be gathered from the interested parties, the road to Ely in time cannot be doubted. This would mean a short haul to smelters, enabling the various shippers of Pioche, Bristol and Jack Rabhit districts to realize at least a third Rabbit districts to realize at least a third saving on transportation alone; also it would be the means of every one owning property yet undeveloped going ahead and furnishing to the mining world quantities of ore that would swell the tonnage to an amount greater than any district in Nevada."

Mining Notes.

Manager Grant Snyder is back from a trip of inspection to the Clift company's properties at Ophir. Five cars of Utah ore and six from Nevada were released from the Pioneer sampling works yesterday morning. Eight carloads of ore from Utah mines and two from Nevada were released from the Taylor & Brunton sampler yesterday. Lew Humphries, the Gunn-Thompson company's engineer, has gone to Yerington to look after matters at the Mason Valley company's mines. He will be gone several days.

Courtney DeKalb, of the Mining and Scientific Press, San Francisco, is in the city getting acquainted with the big mining and smelting operators and incidentally learning something about the great reduction works of this section.

A new blacksmith shop is going up and other improvements are now being at the mouth of the Mountain Maid tunnel on the ground of the Bingham Central-Standard company. It is promised that another big ore body will be tapped by this tunnel in the not distant future.

Manager J. T. Breckon, of the Gold & Copper company's properties in Beaver county, left for camp last night to see how work is progressing in the development tunnel now being driven. He stated yesterday that the assessment work on all of the company's unpatented claims had been done for this year,
